

InLine 23181E monitor mount accessory

Model: 23181E

Manufacturer: INLINE

EAN: 4043718332212

Product Code: 1558830

R2,531

Professional workplace system: The aluminum slatwall panel forms a stable base for modular mounting solutions in office and industrial environments.

Dual use: The table mount allows monitor arms or accessories to be attached on both sides for two opposite workstations.

Robust construction: The high-quality aluminum profile with reinforced clamp feet ensures a secure hold and long-lasting stability on the edge of the table.

Flexible expansion: Compatible with slatwall accessories from the InLine® series – ideal for individual workstation configurations.

Easy installation: Thanks to the clamp principle, the mount can be installed without tools and removed without leaving any residue if necessary.

The InLine® Slatwall table mount with 1 m aluminum panel and two sturdy table supports (0.43 m each) provides a high-quality basis for modular workstation systems. It allows flexible mounting of monitor arms, shelves, or other accessories from the InLine® Slatwall series, creating an ergonomic, tidy working environment.

The system is designed for table mounting and can be used on both sides – ideal for double workstations or team stations. Thanks to its robust aluminum construction, the mount impresses with its high stability and durability. It is attached using sturdy clamps that can be securely fixed to the edge of the table without drilling or screws.

The Slatwall series is part of the modular InLine® system and can be supplemented with numerous extensions to optimally meet individual requirements for modern workplace design. This creates a flexible solution for professional use in office, production, or service environments.

Panel length: 1 m

Height of table supports: 0.43 m

Material: aluminum, plastic

Color: aluminum

Mounting type: table mount with clamp base

System: Slatwall – modularly expandable
