

InLine Kabel / Adapter

Model: 31470S

Manufacturer: INLINE

EAN: 4043718353576

Product Code: 1559000

R1,063

2-in-1 USB-C charging cable with Power Delivery and built-in Apple Watch charging function

Charge two devices at the same time:The 2-in-1 charging cable allows you to charge a compatible USB-C device and a compatible Apple Watch simultaneously using just one cable. This reduces cable clutter and keeps your workspace tidy.

High charging power up to 100 W:The USB-C output supports Power Delivery up to 100 W or 20 V / 5 A. When used with a compatible USB-C PD power adaptor, even high-power USB-C devices can be charged reliably.

Combining charging and data transfer:As well as power delivery, the cable supports the USB 2.0 standard with data transfer rates of up to 480 Mb/s. This makes it suitable for both charging and syncing compatible USB-C devices.

Robust design for everyday use:The braided cable, aluminium casing, nickel-plated USB-C connectors and the integrated E-Marker IC ensure long-lasting and reliable operation.

Wide compatibility:The integrated magnetic charging pad supports compatible Apple Watch

models from Series 1 to 11, as well as Ultra, Ultra 2, Ultra 3 and SE models. This means a wide range of current devices can be charged using a single cable.

The InLine® 2-in-1 USB-C + Watch charging cable combines power delivery for a USB-C device with magnetic charging for compatible Apple Watch models in one compact solution. This reduces the need for multiple charging cables and keeps your workspace or luggage tidy.

The USB-C output supports Power Delivery at up to 100 W, enabling the charging of compatible laptops, tablets, smartphones and other USB-C devices. At the same time, a compatible Apple Watch can be charged via the integrated magnetic charging pad, without the two charging functions interfering with one another.

In addition, the cable supports the USB 2.0 standard with data transfer rates of up to 480 Mb/s. The braided cable, aluminium casing, nickel-plated USB-C connectors and the integrated E-Marker IC ensure high-quality workmanship and support reliable operation in everyday use. The combination of charging and data transfer functions makes the cable a versatile solution for modern USB-C workstations and mobile applications.

Cable length: 1.2 m

USB-C charging power: up to 100 W (20 V / 5 A max.)

Apple Watch charging power: up to 2.5 W (5 V / 0.5 A max.)

Diameter of the Apple Watch charging pad: 27.6 mm

Data transfer: USB 2.0, up to 480 Mb/s

Outer sheath: black/grey

Operating temperature: -30 °C to +50 °C

E-marker IC: HUSB332D
