GKS 18V-57-2 Professional: Further information

Product Highlights

The compact sized GKS 18V 57-2 Professional cordless circular saw – with its saw blade on the right – delivers impressive performance thanks to its powerful brushless motor. The 165mm saw blade allows a cutting depth of 57mm in 90° cuts and is optimized for cordless working which ensures both, a fast cutting progress and maximized battery runtime. It features a 360° rotatable dust port connector, which is compatible with the Click & Clean System. This supports high dust-extraction efficiency and ensures an increased user health protection.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
