Smart Pet Feeder PF1

360° watch & feed, your pet's all-in-one mate.

360° Panoramic View | 2.5K HD Image | Smart Dispensing | Pet & Eating Detection | 1 Year Free Cloud Storage

See more than eating with a 360° panoramic view

PF1 is equipped with a 360° panoramic fisheye lens, which solves the problem of not seeing the remaining food in the food bowl and provides a complete view of your pet's eating.

4 monitoring modes for all pet-sitting needs

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

PF1 offers 4 different working modes, allowing it to be used as a Pet Cam to watch over your pets in addition to a feeder.

- 360° Mode - Seeing it all
- Bowl Mode – Focus on eating
- Home Camera Mode – Watch over your pet
- VR Mode – Swipe as you wish

2.5K ultra-sharp images for both day and night caring

The PF1's 4MP lens provides a 2.5K QHD picture and supports infrared night vision, providing a clear surveillance picture day or night.

Accurate AI detection powered by IMOU SENSE®

Eating detection

PF1 can take pictures before and after your pet eats and send you a video so you know exactly how much your pet has eaten.

Pet detection

As we mentioned earlier, the PF1 can accurately detect the presence of your little one in the frame when used as a Pet Cam and push it to you.

Smart dispensing

PF1 can detect whether there is still food left in the food bowl through a visual algorithm, and if there is, it will not continue to dispense food, preventing pets from over-eating.

Pet care at your fingertips via IMOU Life

Schedule your pet's meal

You can set daily feeding times and amounts through the IMOU Life app, so you don't have to worry about your pet even when you're not home.

Stay informed about meal plans

Stay on top of completed plans and when your next meal is due with the IMOU Life app.

Two-way talk

You can communicate with your furry pal on your phone, anytime, anywhere.

Customizable meal call

If your little one is afraid of the sounds made when food is thrown, you can record your voice to tell him it's time to eat!

1 year free¹ Pet Care™ cloud storage

PF1 comes with 1 year of free Pet Care™ Basic cloud storage, which allows you to store 8 seconds of footage and keep it for 1 day, you can also upgrade your subscription within the app.

Powerful anti-clogging function

The PF1 has a three-layer anti-clogging design, which greatly reduces the occurrence of clogging, and the recommended kibble sizes are 2-12mm.

Caring for your little buddy's health

We don't want your little one's health to suffer in any way, so the PF1 equipped the bucket with a desiccant box and used a 304 stainless steel bowl to prevent your pet from getting pimples on their chin.

Backup power now supports live view

Power outage? no worries! The battery mode of the PF1 enables uninterrupted feeding, and even real-time monitoring, staying informed and in control even during power outages.
