Telesin protective case with handle for DJI Osmo Action 3/4/5

The Telesin protective grip case for DJI Osmo Action 3/4/5 is a sturdy, precision-engineered silicone and aluminum alloy construction. It provides a stable grip, quick access to buttons and comfortable operation during recording. The lightweight yet sturdy design protects the camera, improving comfort in the field.

Smooth shutter release mechanism

The seesaw-type trigger mechanism used utilizes an internal spring, which allows the shutter button to be pressed simply, quickly and smoothly. The high-precision fit ensures that pressure is transferred reliably and without delay. So you can make it easy to create exceptional shots! —

Handle with a comfortable profile

The grip is covered with high-quality eco leather with a classic photographic style. It perfectly fits the shape of your hand and guarantees a firm grip when working with the camera. This makes recording much more comfortable!

Thoughtful design

The case was designed specifically for the DJI Osmo Action 5/4/3 models, with high accuracy casting. It provides convenient access to the camera's buttons and ports, without the risk of limiting functionality. So you can easily use the capabilities of your equipment. In addition, the housing is equipped with a magnetic slot that allows you to conveniently store the included T-wrench.

1/4" socket and Cold Shoe mount

The housing has a built-in 1/4" thread that allows mounting on tripods and mounts. In addition, it is equipped with a Cold Shoe mount, so you can easily connect a flash, microphone or other accessories.

Various mounting options

The case offers several configuration options - a hole for a wrist strap is available, as well as a dedicated attachment for mounting a chest strap. Such a solution makes it easy to choose how to work depending on the requirements of the shot.

Included

- Protective case
- Cold Shoe type button
- Wrist strap
- T-type wrench
