R678

Add two extra serial ports to the back of your PC, from your motherboard

The PLATE9M2P16 Dual Port Serial Plate adds two DB9 serial ports to the rear panel of a computer, connecting to two IDC10 header connectors on the motherboard.

Constructed of high quality components, this durable dual port serial bracket is backed by StarTech.com's lifetime warranty.

Please refer to this product's Technical Specifications to ensure compatibility with your motherboard.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
