FINE CUTS FOR A WIDE VARIETY OF APPLICATIONS

Router Bit Set offers fine cuts for a variety of applications for woodworkers

A variety of profiles in many different materials is possible thanks to various cutting geometries

Manufactured according to safety standards of DIN EN-847

Easy-Pick inlay for quick and safe bit handling; exclusive and robust case for ideal bit protection; transparent top

The Router Bit Set features a special Easy-Pick design of the inlay, allowing the bits to be taken out quickly and safely by the shank. It comes in an exclusive and highly robust case that firmly and securely holds bits, offering perfect protection for its contents for safe storage and transport. It features a transparent cover for visibility of the content.

The set is available in three versions, either in 6 mm, 8 mm, or 1/4-inch shank diameter, to cover compatibility with all common handheld routers.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
