7-Port 10G PD Hub with 3 USB Type-C and 3 USB Type-A Data Ports to Add Ultra-Fast USB Connectivity and 100 W Charging to Your Laptop

Maximize your connectivity with the Manhattan 7-Port 10G USB-C / USB-A Hub, designed to boost your productivity with super-fast data transfers, versatile connections, and powerful charging capabilities - all in one sleek, portable design.

Versatile Port Extension

Equipped with three USB-C ports and three USB-A ports, this hub gives you the flexibility to connect a wide range of devices. Plug in your external SSDs, card readers, and Ethernet adapters via USB-C, while still connecting your essential peripherals like mice, keyboards, and flash drives through the USB-A ports.

Blazing-Fast 10G Performance

One USB-A and two USB-C ports support USB 3.2 Gen 2 SuperSpeed+ technology, delivering transfer rates up to 10 Gbps - perfect for moving large files, backing up data, or connecting high-performance peripherals without delays. One USB-C and two USB-A ports support USB 3.2 Gen 1 SuperSpeed technology, delivering transfer rates up to 5 Gbps.

Power Your Laptop While You Work

Stay powered up with USB Power Delivery (PD) support. Simply connect your PD charger (available from Manhattan) to deliver up to 100 W of charging power, keeping your laptop, MacBook®, or Surface® device ready for action.

Plug-and-Play Simplicity

Forget about complicated setups - this hub offers plug-and-play installation with no drivers required. It's compatible with Windows®, macOS®, Linux®, and Chrome OS™, ensuring seamless integration with your devices.

Designed for Convenience

The hub's sturdy 30 cm (1 ft.) built-in cable provides optimal reach for desktop setups, while its sleek aluminum housing offers durability and style. The compact and lightweight design easily fits into your laptop bag, making it perfect for travel or hybrid work environments.

Built for Performance and Protection

With Hot Swapping support and bus-powered functionality, this hub adapts to your workflow. For additional flexibility, the optional USB-C charging port supports PD functionality when an external charger is connected.
