The Nuova cutlery collection from WMF, made of polished Cromargan®, combines timeless design with high-quality features. The sleek items of cutlery are available individually or as a set and combine to form a harmonious whole. The simple elegance of the cutlery in the Nuova range makes it suitable both for everyday use and special occasions. In addition to the cutlery, the collection contains an entire spectrum of serving pieces and special cutlery, ranging from cake servers to muesli spoons.

The broad lasagne server is ideal for lifting and serving lasagne directly from the dish. Enjoy your lasagne in style with this gadget from the Nuova collection!

Similar to a cake server, the lasagne server removes the baked pasta from the baking dish. Thanks to the broad and flat serving bowl, you can even lift larger pieces easily and place them cleanly on the plate. The polished Cromargan® serving piece matches the cutlery collection perfectly.
