R776

The HyperJuice C7 Extension Power Cord is the perfect addition to the 70W, 100W or 145W HyperJuice USB-C GaN Chargers. Using the C7 Extension Power Cord alongside the C8 adapter* allows you to create a desktop charging station, providing a more secure attachment to the wall plug and extending your charging reach.

Create a Desktop Charging Station

Use the C7 Extension Power Cord alongside the C8 adapter* to transform from our USB-C GaN Wall Chargers into a Charging Station. This provides a more secure attachment to the wall outlet as it will

be the C7 Extension Power Cord, rather than the charger, that will be plugged directly into the wall.

Extend Your Charging Reach

Gain more distance to access additional plugs in various locations, such as coffee shops and other public spaces, making it easier to charge your devices wherever you are.
