R1,363

The Universal 3-in-1 2.0 Combination Laptop Lock is a single-tip solution for securing laptops with standard, nano or wedge-shaped slots. It provides universal compatibility across brands and generations without the need for multiple lock heads. It features a 4-digit resettable dial with 10,000 possible combinations, our proprietary cleat locking tip, a strong carbon steel cable and a 360° rotating lock head for easy attachment from any angle without blocking ports. Verified and tested to resist and deter theft and backed by a 5-year limited warranty, this lock offers durable security trusted by professionals worldwide.
