STYLUS PEN is the compatible nib for the latest models of iPad, iPad Pro, iPad Air, and iPad Mini. The nib is tilt-sensitive, meaning it follows the angle of the stroke, and thanks to the Palm Rejection feature, the palm of the hand on the display does not interfere with the use of the pen. It allows for magnetic attachment with compatible iPad models and is equipped with a USB-C port for charging. Pairing with the iPad is automatic; simply turn on the pen and it will connect to the iPad. You can also link the pen to the iPad to access additional information (e.g., display the pen's battery level on the iPad screen). The package includes 1 replacement tip.
