Dual mode domination

Experience the thrill of gaming with the Lenovo Legion M410’s Dual Mode connectivity. Its 2.4G wireless and wired connection offer unrivaled versatility for any gaming scenario. Lightweight and unfettered by cables, it’s your ultimate gaming companion.

Pro-grade precision

Elevate your gameplay with the superior performance of the Legion M410. With a staggering 16,000 DPI, 400 IPS, and a 1000 Hz polling rate, this mouse guarantees ultra-responsive control, bolstering your gaming capabilities to unmatched heights.

A new league

True-to-life gaming is at your fingertips with the M410. A powerful Pixart 3335 sensor, 2.4 GHz SoC, and two-zone RGB encased in a stunning transparent shell provide 30M click durability switches and six programmable buttons for a customizable, immersive gaming journey.
