

Bosch Universal Impact 18V-60 1900 RPM Keyless 1.3 kg Black, Green

Model: 06039D7100

Manufacturer: BOSCH

EAN: 4053423230871

Product Code: 1573426

R2,627

The high-performance impact drilling and screwdriving multi-tasker

Tackle multiple projects effortlessly with the impressive drilling power and endurance of the UniversalImpact 18V-60. This lightweight all-rounder features 20 torque settings, a 2-speed gearbox, and impact drilling mode for greater flexibility and control. Bosch brushless motor technology is the force behind the intense performance of this tool: smoothly and quickly, it tightens screws and drives drill bits into wooden planks, metal, and masonry, ensuring more comfort. Workers will appreciate the robust 13-mm chuck, which is made of metal to keep drill bits and screws securely held in place. The tool belongs to the POWER FOR ALL ALLIANCE. One battery can operate a large

variety of tools from different brands.

POWER FOR ALL cordless systems from Bosch

Whether drilling, cleaning or gardening. Switch quickly and easily between different devices with the 18 V POWER FOR ALL battery from Bosch. For even more flexibility the battery fits also in tools of other POWER FOR ALL battery alliance partner.

Endurance and power

The brushless motor combines a significantly longer service life with more power. Electronically operated, it reduces heat, is contactless, wear-free and works with maximum efficiency, while its compactness enables a lighter and easier-to-use tool construction.

Metal chuck

The keyless chuck allows for fast, one-handed bit exchange and clamps in the drill bits with a high clamping force. The metal material is more robust and reliable and effectively prevents drill bits loose off. The capacity of the chuck ranges from 2-13mm.

Precision made easy

20 torque stages for maximum precision: Simply select the desired torque on the pre-setting ring for individual adjustments on different materials. Once set, the max. final setting ensures optimum power.

LED light for optimal visibility

An integrated LED light ensures optimal visibility for impact drilling and screwdriving in poor lighting conditions.

Two gears for consistently optimal power

The 2-speed gearbox enables choosing the right power setting: screwdriving and drilling larger diameters or quick drilling progress at small diameters.

Battery power indication

Battery power can be checked quickly by pressing and holding the on/off switch. Up to three green LED lights indicate approximate remaining power.

Syneon Technology: Runs longer

Syneon Technology releases optimum power during high-powered tasks and allows for maximum endurance during less intense jobs.
