Product Code: 1574306

R1,096

GLORIOUS MODULAR MECHANICAL GAMING KEYBOARD

TKL PRE-BUILT WITH GATERON BROWN SWITCHES & BLACK KEYCAPS

Trying out different switches, replacing old ones, and matching several types of mechanical keyboard switches used to be difficult and required advanced technical skill. The patent pending Glorious Modular Mechanical Keyboard (GMMK) is the world's first mechanical keyboard featuring hot-swappable switches for Cherry, Gateron, and Kailh branded switches.

Ever wonder what Gateron Blues felt like? Or what is the craze behind the Cherry MX clears? Want to use Gateron Reds for your WASD, but Gateron Blacks for all your other keys? With the GMMK, you no longer have to purchase an entire new keyboard, or disassemble and solder your switches - you can simply pop out the switch just like a keycap, and mix/match to test out and use any combination of

switches you desire.

Armed with a glorious sandblasted aluminum face plate, 100% anti-ghosting (full NRKO), LED back lighting (several modes), modular switches, double shot injection keycaps, and minimalistic design - The GMMK is revolutionizing the mechanical keyboard market, giving users full control without needing any technical experience.

Macros & Hotkeys

Create and assign macros to any key with our GMMK software. Secondary icons printed on only pre-built keyboards.

Functional Form

Rubber feet and pads to prevent your keyboard from sliding. Keycap puller holder included.

Discreet LED indicators

Soft Nums/Caps/Scroll lock lighting that is easy on the eyes.

Attention to detail

High quality gold-plated and removable Micro-USB cable.

Sandblasted Aluminum Faceplate

Professional-grade aluminum delivers a premium look and feel.

Artisan ESC keys

Comes with an alternative ESC key if you prefer a uniform look.

What's in the box?

USB Cables, Glorious sticker, keycap & switch puller artisan & default ESC keys.
