Superspeed USB-C 3.2 Gen 2 hub AXAGON HMC-4G2 SPEEDSTER 4 expands your laptop, computer or phone with four ports. You can easily and quickly connect up to four USB devices to your computer at the same time via the dual-sided USB-C connector.

The USB hub offers a total of four USB outputs - two with standard USB-A connectors and two with modern USB-C connectors.

Thanks to the advanced USB 3.2 Gen 2 interface, you can connect high-speed devices such as NVMe M.2 external drives to all outputs at up to 2x higher speed 10 Gb/s compared to standard Generation 1 hubs with a speed of only 5 Gb/s. The hub can handle permanent connection of several external drives simultaneously and USB-C ports allow charging of phones and tablets with a current of up to

3A.

The compact and slim aluminum body looks great and also ensures mechanical resistance and quality cooling. The finely structured surface with no fingerprint remains will also please you.

The USB-C hub is an ideal accessory for laptops without USB-A connectors such as the MacBook Pro. You can use your existing USB peripherals without having to buy new ones. Thanks to the Plug and Play and Hot Plug functions, the connection of the hub itself is very simple without complicated installation. It is also possible to easily connect and disconnect peripherals while the computer is running. The hub does not afraid of connection to phones with a USB-C connector - for example, you can connect a flash drive, keyboard or mouse to the phone.
