

InLine Antistatic Wristband for ESD safe work sessions PC / Server

Model: 55553

Manufacturer: INLINE

EAN: 4043718041060

Product Code: 1575335

R648

The antistatic cuff is used by experienced electronics engineers and PC technicians to protect themselves from static charging when working on the PC or other sensitive electronic devices. The cuff is buckled around the wrist and the crocodile clip at the other end of the spiral cord is clamped to a grounded metal surface (e.g. radiator etc.)
