Compact size

The size of the device is compact. It is manufactured from high quality components to ensure reliable operation from -40 to 70 degrees Celsius.

Installation

The installation of Ubiquiti NanoBeam M devices is quick and effortless. The device includes a round handle which facilitates correct installation.

Key features

- works in the 5 GHz band
- 150+ Mbps bandwidth
- 10+ km range
- 16 dBi antenna power gain
- dual linear polarisation
- durable construction resistant to atmospheric conditions

Use

The NBE-M5-16 device can work in a router or bridge mode.
