

Ubiquiti Networks AF- 5G30-S45 network antenna 30 dBi

Model: AF-5G30-S45

Manufacturer: UBIQUITI

EAN: 810354022005

Product Code: 1576608

R3,337

AF-5G30-S45 - Ubiquiti airFiber X series reliable antenna

The Ubiquiti AF-5G30-S45 antenna is designed to create efficient radio links for long distances. It's distinguished by functionality and reliability.

The device works in the 5 GHz band and uses MIMO 2x2 technology. The maximum gain is 30 dBi.

Functionality

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The solution works with Ubiquiti AirFiber 5X devices. Thanks to its modified construction it is much lighter than the RocketDish30 (with a weight of only 7.4 kg). Its solid construction results in high durability and resistance to unfavourable weather conditions (200 km/h wind speed). The maximum voltage standing wave ratio is 1.6:1.

Installation

The installation of the AF-5G30-S45 is easy and intuitive and does not require the use of specialised tools.

Reliability

The Ubiquiti AF-5G30-S45 antenna combines innovative technologies, functionality and an affordable price. Its modern design facilitates RF isolation and reduces noise. It works effectively in varied environments.

Key features

- works in the 5 GHz band
- 30 dBi maximum gain of the antenna
- modern design
- sturdy construction
- size ø 650 x 386 mm

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
