

Hikvision DS-1280ZJ-DM18 Junction box

Model: DS-1280ZJ-DM18

Manufacturer: HIKVISION

EAN: 6954273658656

Product Code: 1576636

R823

Crafted from durable aluminum, this junction box is designed to enhance and protect your security system installations. Compatible with select Hikvision camera models, it ensures a seamless fit and integration. The robust construction of the box provides a reliable safeguard against various environmental elements, boasting a waterproof design that stands up to adverse weather conditions.

Finished in a neutral white, the unit blends easily with most exteriors or interiors, maintaining a professional appearance. The design facilitates easy installation and maintenance, allowing for efficient cable management and connectivity.

Manufactured by Hikvision Digital Technology, a leader in surveillance products, this junction box meets high standards of quality and compatibility. It serves as a universal mounting solution, ensuring stability and security for your surveillance equipment. Whether used in residential or commercial settings, it provides a solid foundation for any security setup.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
