

Ubiquiti Networks AM-5G20-90 network antenna Sector antenna 20.3 dBi

Model: AM-5G20-90

Manufacturer: UBIQUITI

EAN: 810354020926

Product Code: 1576644

R3,476

AM-5G20-90 - tested Ubiquiti solution

The Ubiquiti AM-5G20-90 sector antenna works in the 5.15-5.85 GHz band. The antenna is characterised by a maximum gain of 20.3 dBi. The product is intended for outdoor use.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Innovation

Its innovative solutions result in high performance parameters such as optimal beam shape and high separation.

Construction

A solid and durable construction of the sector antenna guarantees reliable work without regard to unfavourable weather conditions.

Use

The Ubiquiti AM-5G20-90 sector antenna is used to create Point-to-Point and Point-to-MultiPoint connections.

airMax

The device is airMax protocol compliant which leads to higher capacity.

Key features

- works in the 5 GHz band
- maximum gain of the antenna 20 dBi
- Dual-Linear polarisation

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
