Teltonika RUTX10 Enterprise Dual-Band WiFi 802.11ac Bluetooth Router

Model: RUTX10000000

Manufacturer: TELTONIKA

EAN: 4779027312453

Product Code: 1576758

R4,402

Equipped with dual-band Wi-Fi 5 (802.11ac), the device ensures high-speed data transmission up to 867 Mbit/s, facilitating a smooth and efficient browsing experience. It operates on both 2.4 GHz and 5 GHz frequencies, allowing for versatile wireless connectivity options. The Ethernet LAN interface supports Gigabit Ethernet with data rates of 10, 100, and 1000 Mbit/s, ensuring fast and stable wired connections. Security is prioritized with advanced algorithms including SSH and SSL/TLS, safeguarding your network against unauthorized access. The grey unit features a clear set of LED indicators for power, status, and WLAN, which provide at-a-glance system monitoring. The external antenna design enhances signal strength and coverage. At its core, the device runs on a Quad-core ARM Cortex A7 processor at 717 MHz, coupled with 256 MB of flash memory, which is expandable for
