The USW-16-POE is a configurable Gigabit Layer 2 switch with sixteen Gigabit Ethernet ports including eight auto-sensing 802.3at PoE+ ports, and two SFP ports. It provides Gigabit PoE links to your RJ45 Ethernet devices and Gigabit fiber uplink options to your enterprise network. The USW-16-POE features a 1.3" touch LCM to provide status information. With a depth of 7.9", the compact fanless design can be easily installed in a SOHO rack cabinet.

Managed and configured by the UniFi Network application with UniFi mobile app support, the USW-16-POE offers an extensive suite of advanced Layer 2 switching protocols and features, including operation mode (switching, mirroring, or aggregate) per port. The UniFi Network application and mobile app allow admins to configure and monitor virtually all of the switch features in a graphical user interface from anywhere.

Fiber Connectivity

SFP ports enable network uplinks of up to 1 Gbps.

Fanless, Silent Cooling

The UniFi PoE Switch features fanless, silent thermal cooling*, so it can be deployed in areas where fan noise would be distracting.

Switching Performance

The UniFi PoE Switch offers the forwarding capacity to simultaneously process traffic on all ports at line rate without any packet loss.

802.3af/at PoE

PoE support simplifies your network infrastructure and cabling. PoE ports offer 802.3af/at to power your PoE devices, such as UniFi APs and cameras.

Additional Product Notes

1. (16) Gigabit Ethernet Ports including (8) 802.3at PoE+ Ports
2. (2) 1G SFP Ports
3. 1.3" touch LCM
4. Managed with UniFi application
