Ubiquiti Networks UAP-AC-M-PRO Wireless Access Point

Expand your Wi-Fi network outdoors with the UniFi® AC Mesh Pro Access Point, part of the Ubiquiti UniFi Enterprise Wi-Fi System. The UAP-AC-M-PRO is a high-performance, outdoor, 3x3 MIMO, 802.11ac dual-band access point, capable of speeds of up to 1750 Mbps. It features a proprietary, MIMO-optimized, omni-directional Super Antenna for exceptional 360° coverage, providing symmetrical long-range communications of up to 183 meters.

Save Money and Save Time

UniFi comes bundled with a non-dedicated software controller that can be deployed on an on-site PC, Mac, or Linux machine; in a private cloud; or using a public cloud service. You also have the option of using the UniFi Cloud Key with built-in software.

Powerful Hardware

The UniFi AC Mesh APs feature Wi-Fi 802.11AC with Plug & Play Mesh technology.

Intuitive UniFi Controller Software

Configure and manage your APs with the easy-to-learn user interface.

Expandable

Unlimited scalability: build wireless networks as big or small as needed. Start with one and expand to thousands while maintaining a single unified management system.

Use

UAP-AC-M-PRO works well in various environments, from educational facilities to corporate buildings or hotels. The management process facilitates administration.

One example of using the UniFi Mesh solution to provide wireless connectivity to buildings was its introduction to a city market.

UniFi AC M Pro has also been used in a university park.

Fast installation

The simple installation process makes the deployment an effortless affair. The device can be mounted on a pole or a wall. This makes the devices an ideal option for music festivals and other types of outdoor events.

Sample network diagram

Key features

- 1. Works outside
- 2. High resistance to unfavourable weather conditions
- 3. 3x3 MIMO
- 4. Versatile installation
- 5. Long range (183 m)
- 6. Two Gigabit Ethernet ports

Comparison

	UAP-AC-M	UAP-AC-M-PRO
Environment	Indoor/Outdoor	Outdoor
