Mikrotik RB911G-2HPnD-12S network antenna Sector antenna 120 dBi

Model: RB911G-2HPND-12S

Manufacturer: MIKROTIK

EAN: 4752224002853

Product Code: 1576952

R2,523

The **Mikrotik RB911G-2HPnD-12S** is a high-performance wireless device designed for robust connectivity in various environments. With a maximum antenna gain of **120 dBi**, this product ensures exceptional signal strength and coverage, making it ideal for both residential and commercial applications. Operating on the **2.4 GHz** frequency band, it supports multiple communication standards including **IEEE 802.11b**, **IEEE 802.11g**, and **IEEE 802.11n**, providing versatile connectivity options.

This **sector antenna** features **dual polarization**, allowing for improved signal quality and reduced interference. The sleek **white** color of the device not only enhances its aesthetic appeal but also ensures it blends seamlessly into various settings. The **RB911G-2HPnD-12S** is engineered to

deliver reliable performance, making it a preferred choice for network professionals seeking dependable wireless solutions.

Powering the **Mikrotik RB911G-2HPnD-12S** is straightforward, with options for **DC** and **PoE** (Power over Ethernet) connectivity. It operates efficiently with a maximum power consumption of **11 W** and supports a voltage range of **10-30 V**. This flexibility in power options ensures that the device can be deployed in various locations without the need for extensive electrical infrastructure.

With dimensions of **140 mm** in width, **348 mm** in depth, and **82 mm** in height, the **Mikrotik RB911G-2HPnD-12S** is compact yet powerful, making it suitable for both indoor and outdoor installations. Its robust design and advanced features make it an excellent choice for users looking to enhance their wireless network capabilities.
