

Hikvision DS-1275ZJ-SUS Vertical pole mount

Model: DS-1275ZJ-SUS

Manufacturer: HIKVISION

EAN: 6954273658663

Product Code: 1576971

R1,198

Constructed from durable stainless steel, the Hikvision DS-1275ZJ-SUS is a vertical pole mount designed to support various surveillance equipment installations. This mount is finished in white, ensuring it blends seamlessly with most environments and maintains a professional appearance. Manufactured by Hikvision Digital Technology, it reflects the high standards of quality and durability expected from a leading brand in security solutions.

The package includes one piece, making it suitable for a single installation around poles or columns. Its robust construction ensures stability and longevity, providing a secure platform for mounting essential surveillance equipment. The design facilitates easy installation and adjustment, allowing for optimal positioning and angle adjustment to meet specific surveillance needs.

This mount is compatible with a range of devices, enhancing its versatility in various installation scenarios. Whether used in commercial, residential, or industrial settings, it provides a solid

foundation for any security setup, ensuring that surveillance devices remain fixed and properly
