

Mikrotik RBM33G wired router Black, Green, Grey (RBM33G)

Model: RBM33G

Manufacturer: MIKROTIK

EAN: 5704174116790

Product Code: 1576987

R1,883

Powerful OEM board with three Gigabit LAN and two miniPCIe slots

The RBM33G is a fully featured RouterBOARD device perfect for using in your own enclosure or building a custom solution. It uses the same PCB form factor and same mounting holes as it's predecessors (RB433 and RB953 series).

The RBM33G features a new MediaTek two core CPU running at 880 MHz and 256 MB of DDR3 RAM and three Gigabit Ethernet ports. It is specially designed for setups that requires two 3G/LTE modems. You can use the device with e.g.:

1. two miniPCIe 3G/LTE modems (two SIM slots provided);
2. two miniPCIe wireless cards

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

3. one miniPCle and one USB 3G/LTE modem leaving other miniPCle slot for 802.11 wireless card (consult product Quick Guide for details).

The included USB 2.0/3.0 port can be used either for 3G/LTE modem or an external hard drive (consult product Quick Guide for details). For expanding storage, microSD and a PCIe M.2 slots are provided.

The RBM33G comes fitted with a RS232 serial port for console access. The device can be powered by PoE through it's gigabit ethernet connector or through the DC power jack.
