

Mikrotik netPower Lite 7R Gigabit Ethernet (10/100/1000) Power over Ethernet (PoE) White

Model: CSS610-1GI-7R-2S+OUT

Manufacturer: MIKROTIK

EAN: 4752224000033

Product Code: 1577005

R3,260

The **MikroTik netPower Lite 7R** (model code: **CSS610-1GI-7R-2S+OUT**) is a robust and efficient solution designed for seamless network connectivity. This product is part of the MikroTik lineup, known for its reliability and performance in various networking environments. With its compact design and advanced features, it is ideal for both home and business applications.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Equipped with **8 Gigabit Ethernet RJ-45 ports**, the netPower Lite 7R ensures high-speed data transfer rates of **10/100/1000 Mbps**. This makes it suitable for demanding tasks such as video streaming, online gaming, and large file transfers. The device supports **PoE (Power over Ethernet)**, allowing for flexible installation options without the need for additional power sources.

Operating with a **DC input voltage range of 12 - 57 V**, the MikroTik netPower Lite 7R is designed to accommodate various power supply configurations. The **DC-in jack** provides a reliable connection for power, ensuring uninterrupted operation. This versatility makes it an excellent choice for outdoor installations and remote locations.

In summary, the **MikroTik netPower Lite 7R** is a feature-rich networking device that combines performance, flexibility, and reliability. With its advanced **Ethernet switching capabilities** and support for **PoE**, it stands out as a valuable addition to any network infrastructure. Whether for personal use or enterprise-level applications, this model is engineered to meet the demands of modern connectivity.
