Teltonika 035R-00152 power adapter/inverter Indoor 9 W Black

Model: 035R-00152

Manufacturer: TELTONIKA

Product Code: 1577015

R862

The Teltonika 035R-00152 serves as a dedicated power adapter and inverter designed specifically for indoor use. It efficiently powers routers, ensuring stable and consistent performance. The adapter operates with an input voltage range of 90 - 264 V and a frequency range of 47 - 63 Hz, making it versatile for various electrical environments. With an output power of 9 W and an output voltage of 9 V, it provides the necessary energy to keep devices running smoothly without interruption. The unit is compact, with dimensions of 40 mm in width and 74 mm in depth, allowing for easy placement in tight spaces. This model is encased in a sleek black housing that blends seamlessly with other electronic equipment. It includes a 2000 mm cable, offering ample length for setup flexibility. The design and build are focused on delivering a straightforward and efficient power solution for routers within indoor settings.
