

MikroTik OmniTIK 5 PoE ac, 5GHz, Gigabit Ethernet, PoE, USB, 18W

Model: RBOMNITIKPG-5HACD

Manufacturer: MIKROTIK

EAN: 5902560364842

Product Code: 1577091

R3,396

The **RBOMNITIKPG-5HACD** is a high-performance networking device designed by **MikroTik**, specifically engineered to operate in the **5 GHz** frequency band. This device is ideal for users seeking reliable and efficient wireless connectivity, making it a perfect choice for both home and business environments. With its advanced features, the RBOMNITIKPG-5HACD stands out in the competitive landscape of wireless networking solutions.

Equipped with the capability to support a maximum data transfer speed of **54 Mbit/s**, the RBOMNITIKPG-5HACD ensures seamless data transmission for various applications. This device is compliant with the **IEEE 802.11ac** standard, which allows for the creation of high-throughput

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

wireless local area networks (WLANs) in the **5 GHz** band. Users can enjoy enhanced performance and reduced interference, making it suitable for high-demand environments.

The **MikroTik RBOMNITIKPG-5HACD** is designed to cater to a wide range of networking needs, from streaming high-definition content to supporting multiple connected devices simultaneously. Its robust design and advanced technology make it a reliable choice for users looking to upgrade their wireless network infrastructure. The device is also easy to set up and manage, ensuring a hassle-free experience for both novice and experienced users.

In summary, the **RBOMNITIKPG-5HACD** by **MikroTik** is a versatile and powerful networking solution that meets the demands of modern wireless communication. With its impressive specifications and adherence to industry standards, this device is well-suited for anyone looking to enhance their wireless connectivity. Whether for personal use or business applications, the RBOMNITIKPG-5HACD delivers exceptional performance and reliability.
