

Teltonika Mobile adhesive SMA antenna

Model: PR1AS420

Manufacturer: TELTONIKA

EAN: 4779051840410

Product Code: 1577120

R732

The Teltonika PR1AS420 is a network antenna designed to enhance signal reception and transmission across a range of frequencies. With an antenna gain level of 2 dBi, it operates effectively within the frequency bands of 0.824-0.96 GHz and 1.71-2.17 GHz. This makes it suitable for various communication applications. Constructed with a 50 Ω impedance, the antenna ensures efficient performance and is compatible with devices requiring this specification. The SMA connector type with male gender facilitates easy and secure connections to corresponding female ports. Featuring linear polarization, the antenna can transmit and receive signals in a linear orientation, which helps in reducing interference and improving signal clarity in certain installation environments. The dimensions of the antenna are compact, measuring 115.6 mm in width, 21.7 mm in depth, and 5.8 mm in height, allowing for easy integration into existing setups without requiring extensive space. This antenna is a functional component for enhancing network capabilities in compatible systems, ensuring stable and clear communication across the supported frequency ranges.
