

Mikrotik XS+31LC10D network transceiver module Fiber optic 25000 Mbit/s SFP28 1310 nm

Model: XS+31LC10D

Manufacturer: MIKROTIK

EAN: 5704174386018

Product Code: 1577155

R3,381

The **MikroTik XS+31LC10D** is a high-performance **SFP28 transceiver** designed for fiber optic connections. This advanced module supports a maximum data transfer rate of **25000 Mbit/s**, making it an ideal choice for high-speed networking applications. With its robust design and reliable performance, the XS+31LC10D is perfect for enhancing your network infrastructure.

Constructed from durable **stainless steel**, the MikroTik XS+31LC10D ensures longevity and resilience in various operating environments. The transceiver is engineered for a mean time between failures (MTBF) of **200000 hours**, providing peace of mind for users who require dependable connectivity. This product is a single unit, making it easy to integrate into existing systems.

As part of MikroTik's extensive line of networking solutions, the XS+31LC10D exemplifies the brand's commitment to quality and innovation. This model is specifically designed for use in high-capacity networks, ensuring efficient data transmission and minimal latency. Its **SFP28 interface** allows for seamless compatibility with a wide range of networking equipment.

In summary, the **MikroTik XS+31LC10D** is a top-tier choice for those seeking a reliable and high-speed **fiber optic transceiver**. With its impressive technical specifications and robust construction, it stands out as a valuable addition to any networking setup. Trust in MikroTik's expertise to deliver exceptional performance and reliability in your network communications.
