MikroTik Cloud Core Router 2004-1G-2XS-PCIe, Network Interface Card, 2x 25G SFP, RouterOS L6

Model: CCR2004-1G-2XS-PCIE

Manufacturer: MIKROTIK

EAN: 4752224007926

Product Code: 1577355

R4,440

The **MikroTik CCR2004-1G-2XS-PCIE** is a high-performance network device designed to meet the demands of modern networking environments. Equipped with a powerful **quad-core ARMv8 64-bit AL32400 processor**, this router ensures robust performance for intensive networking tasks. Its architecture is optimized for handling multiple connections and high data throughput, making it an ideal choice for both small and large-scale deployments.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

With **4 GB of RAM**, the CCR2004-1G-2XS-PCIE provides smooth data processing and efficient task management. This ample memory capacity allows for seamless multitasking and enhances the overall responsiveness of the device, ensuring that it can handle demanding applications without lag. Whether you are managing a corporate network or a data center, this router is built to deliver reliable performance.

The device features **two 25G SFP28 cages**, which facilitate high-speed fiber connectivity. This capability is particularly beneficial for data centers and enterprise networks where bandwidth-intensive applications are commonplace. The SFP28 ports enable quick and efficient data transfer, ensuring that your network can keep up with the increasing demands of modern applications.

In summary, the **MikroTik CCR2004-1G-2XS-PCIE** is a versatile and powerful networking solution that combines advanced technology with practical features. Its **high-performance processor**, generous memory, and **fast fiber connectivity** make it suitable for a wide range of applications, from small businesses to large enterprises. This model is part of MikroTik's commitment to providing reliable and efficient networking solutions.
