

APC Back-UPS BX750MI - 750VA, 4x C13, USB

Model: BX750MI

Manufacturer: APC BY SCHNEIDER ELECTRIC

EAN: 731304410799

Product Code: 1577423

R3,870

Security through emergency power

An APC Back-UPS has a built-in battery that ensures that all connected equipment, such as a PC and NAS, but also your WIFI internet (router + modem) continues to function if the power goes out. In addition, this APC emergency power supply can also automatically shut down a NAS or PC in time via the USB connection. Useful when the APC ups is almost empty. This prevents downtime, damage to equipment, and loss of data.

Safety and convenience

In addition, this secure APC Back-UPS protects by are surge protected outputs that protect valuable equipment against peak voltage caused by lightning strikes, for example. Thanks to the 1Gb

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Network Dataline Surge Protection, the UPS also protects your Ethernet data line (internet cable) and the equipment connected to it against "backdoor" peak voltage, all without sacrificing internet speed. It is also extra quiet due to the fanless design.

Battery life

You can easily read the expected battery life in the runtime graph, which you can find between the product images. You can easily see how long the UPS supplies emergency power at a certain load.

Extend the lifespan

The internal battery cartridge (RBC17) can be replaced. This way you can easily and cheaply extend the lifespan of the APC Back-UPS BX750MI.

Warranty extension

The factory warranty of the BX750MI is 2 years and can be upgraded to 5 years with the APC service pack (WBEXTWAR3YR-SP-01A).

Insurance

Despite the high risk of lightning strikes and surges, APC has full confidence in its products and offers this APC Back-UPS:
- Equipment protection policy of 50,000 euros

Save on operational costs

The UPS is equipped with AVR, which extends battery life and maximizes runtime by correcting low and high voltages without discharging the battery. Furthermore, the emergency power supply has 4 battery+surge protected outputs. PowerChute Serial Shutdown software and a USB cable are also included.

Automatic Voltage Regulation (AVR)

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Automatically steps up low voltage and steps down high voltage to levels that are suitable for your equipment.

Dataline surge protection

Provides protection of connected equipment from power surges on the data lines.

PowerChute Serial Edition

This software supports numerous operating systems and processors.

USB connection

Use your PC to access additional power protection and management features for your UPS via a USB Port.

Audible alarms

Provides notification of changing utility power and UPS power conditions

LED status display

Quickly understand unit and power status with visual indicators.

Intelligent battery management

Maximizes battery performance, life, and reliability through intelligent, precision charging.

Automatic self-test

Periodic battery self-test ensures early detection of a battery that needs to be replaced.

Battery failure notification

Provides early-warning fault analysis on batteries enabling timely preventive maintenance

Surge only outlets

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Protect secondary electronics from surges and spikes without reducing battery power used to run primary electronics during an outage.

Battery and surge protected outlets

Back up and protect your hardware and data during power outages, surges and spikes.

Safety-agency approved

Ensures the product has been tested and approved to work safely with the connected service provider equipment and within the specified environment.

Battery-protected and surge-only outlets

Reserves power capacity and run time for connected equipment that require UPS battery back-up while providing surge only protection for less critical equipment
