

Teltonika EU 2-pin power supply, 250W

Model: PR320EUA

Manufacturer: TELTONIKA

EAN: 5704174953203

Product Code: 1577558

R2,992

The Teltonika PR320EUA is a high-performance AC-to-DC power supply designed for indoor use. It features a robust input voltage range of 100 - 240 V and supports an AC input frequency of 50 - 60 Hz, making it versatile for various electrical environments. With an output power of 250W and an output voltage of 54V, it efficiently meets the energy demands of compatible devices. This power supply is encased in a durable black housing, ensuring it blends seamlessly with other electronic equipment. It weighs 1.08 kg, which provides stability and reduces the risk of accidental displacement. Each package contains one unit, simplifying the procurement process for multiple installations or replacements. The Teltonika PR320EUA is specifically engineered to convert AC power to DC power with high efficiency, ensuring dependable performance for critical applications. Its design and specifications cater to a wide range of professional settings, emphasizing functionality and energy efficiency.
