FLEXIBLE SFP+ CONNECTIVITY

Supporting data rates of 1 Gb/s and 10 Gb/s, these modules are designed for SFP+ slots and are also compatible with SFP slots. Their compact transceiver format provides a practical way to connect compatible network equipment over single-mode optical fiber, with a maximum power consumption of 1 W per module.

DESIGNED FOR RELIABLE OPERATION

Each module operates within a temperature range of 0–70°C and is classified as a Class 1 Laser Product under IEC/EN 60825-1:2014. The two-module set features silver housings and provides matching transceivers for a duplex connection.
