

Mikrotik CRS510-8XS-2XQ-IN network switch L3 Fast Ethernet (10/100) Power over Ethernet (PoE) White

Model: CRS510-8XS-2XQ-IN

Manufacturer: MIKROTIK

EAN: 4752224008466

Product Code: 1577650

R19,921

The **MikroTik CRS510-8XS-2XQ-IN** is a high-performance **Layer 3 switch** designed to meet the demands of modern networking environments. This versatile device features a robust set of functionalities that make it suitable for various applications, from small businesses to larger enterprise networks. With its advanced capabilities, the CRS510-8XS-2XQ-IN ensures efficient data handling and seamless connectivity.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Equipped with **Fast Ethernet (10/100)** RJ-45 ports, the **MikroTik CRS510-8XS-2XQ-IN** offers reliable and speedy network performance. It includes a total of **1 Ethernet port** for basic switching, along with a **console port** for easy management and configuration. The device adheres to the **IEEE 802.3bt** communication standards, ensuring compatibility with a wide range of network devices.

Powering the **MikroTik CRS510-8XS-2XQ-IN** is straightforward, with a **DC input voltage** range of **36 - 57 V**. This flexibility allows for various power supply options, making it easier to integrate into existing setups. Additionally, the switch supports **Power over Ethernet (PoE)**, enabling the powering of connected devices directly through the network cable, which simplifies installation and reduces cable clutter.

In summary, the **MikroTik CRS510-8XS-2XQ-IN** is a reliable and efficient **Layer 3 switch** that combines essential features with advanced technology. Its robust design, combined with the ability to handle **Fast Ethernet** connections and support for **PoE**, makes it an ideal choice for those looking to enhance their network infrastructure. Whether for small-scale or larger deployments, this model stands out in the MikroTik lineup for its performance and versatility.
