

Teltonika 4-PIN plug with contact terminals

Model: PR4MK04K

Manufacturer: TELTONIKA

EAN: 5704174881933

Product Code: 1577690

R748

The pr4mk04k is a 4-pin plug equipped with contact terminals designed for secure electrical connections. This plug features a robust construction that ensures durability and consistent performance. The design includes four pins that are configured to facilitate easy and reliable connectivity with compatible devices. Constructed from high-quality materials, the plug is built to withstand regular use in various environments. Each pin is precisely engineered to maintain a solid connection without the risk of loosening over time. The contact terminals are made from a conductive material that optimizes electrical conductivity while minimizing resistance. This product is suitable for use in a range of applications, including industrial, automotive, and telecommunications settings. It is designed to be easy to install, requiring minimal tools and expertise. The compact size of the plug makes it a convenient choice for installations where space is limited. Overall, the pr4mk04k provides a dependable solution for establishing electrical connections in a variety of settings, ensuring functionality and efficiency in its applications.
