

# **Teltonika RUT200 Industrial LTE WiFi Router (Quectel)**

Model: RUT200010000

Manufacturer: TELTONIKA

Product Code: 1577748

## **R3,408**

The Teltonika RUT200 is designed to provide robust connectivity solutions with its 4G LTE capabilities. It supports the LTE standard, ensuring fast and efficient mobile network access and is compatible with MiniSIM cards. This device offers a WAN connection through an RJ-45 interface, making it suitable for a variety of industrial applications. Equipped with Wi-Fi 4 (802.11n) technology, the router also supports 802.11b and 802.11g standards, allowing for flexible wireless communication options. The top Wi-Fi standard ensures a reliable connection within the supported network frameworks. For wired connections, it features a Fast Ethernet LAN interface, with data rates of 10,100 Mbit/s and utilizes 10/100Base-T(X) cabling technology. Security is a priority with this router, which includes advanced security algorithms such as AES-CCMP, TKIP, WEP, WPA-EAP, WPA-PSK, WPA2-Enterprise-PEAP, and WPA2-PSK. These protocols help protect sensitive data transmitted over the network. The Teltonika RUT200 is an effective solution for industrial environments requiring stable and secure internet connectivity.
