

TP-LINK MS108G 8-Port Gigabit Desktop Switch SPEC: 8 Gigabit Ports

Model: MS108G

Manufacturer: TP-LINK

EAN: 6935364099626

Product Code: 1577823

R841

The **Mercusys MS108G** is an advanced **8-port desktop switch** designed by **TP-LINK** to enhance your network connectivity. This unmanaged switch features eight **RJ-45 Ethernet ports** that support **Gigabit Ethernet** speeds of **10/100/1000 Mbps**, allowing for efficient handling of network traffic and significantly reducing transfer times. Complying with **IEEE 802.3**, **IEEE 802.3u**, and **IEEE 802.3x** standards, the MS108G ensures compatibility with a wide array of network devices, making it a versatile choice for various networking environments.

One of the standout features of the **Mercusys MS108G** is its **full duplex capability**, which enables simultaneous data transmission and reception. This functionality greatly enhances communication efficiency and optimizes bandwidth utilization, particularly in settings that demand high data

throughput and real-time data transmission. Whether you're managing a small office network or expanding your home setup, this switch provides the robust performance needed to meet your networking demands.

Powered through a **DC-in jack**, the **MS108G** simplifies connectivity and power setup, making it user-friendly for both novice and experienced users. Its compact design allows for easy desktop placement, conserving valuable space while maintaining optimal functionality. With its reliable speed and stability, the **Mercusys MS108G** stands out as a straightforward solution for expanding network capacity, ensuring that your network operates smoothly and efficiently.
