

Teltonika TSW212 L2 Managed Switch 8X 10/100/1000, 2 SFP PORTS

Model: TSW212000000

Manufacturer: TELTONIKA

EAN: 4779051841370

Product Code: 1577945

R3,402

The tsw212000000 is a Layer 2 managed switch from Teltonika Networks, enhanced with Layer 3 features for superior network management. It supports advanced protocols such as DHCPv6 client and static IPv6 routing. With a MAC address table of 8000 entries and a switching capacity of 20 Gbit/s, this switch is designed to handle substantial data throughput efficiently. Equipped with 8 Gigabit Ethernet ports and 2 SFP ports, the device facilitates high-speed wired connections and long-range fiber optic communication, respectively. It adheres to networking standards including IEEE 802.1Q, IEEE 802.1p, and IEEE 802.3az, ensuring compatibility with various network configurations. The switch supports multiple industrial protocols, including Ethernet/IP, PROFINET, and MRP, making it suitable for automated data processing environments. The rugged aluminum housing ensures durability, allowing the switch to perform reliably in extreme temperatures and resist severe vibrations. An integrated DIN rail mount simplifies installation, making it straightforward to integrate into existing setups. The intuitive Teltonika Networks OS for switches offers extensive configuration
