

Teltonika 5G Mobile magnetic SMA antenna

Model: PR1KS536

Manufacturer: TELTONIKA

EAN: 4779051840649

Product Code: 1577949

R829

Enhance your mobile network capabilities with the pr1ks536, designed to operate across multiple frequency bands including 0.617 - 0.96 GHz, 1.4 - 2.69 GHz, and 3.3 - 5.9 GHz. With an antenna gain level of 3.6 dBi, this omni-directional antenna ensures consistent and broad wireless coverage. The SMA male connector facilitates seamless integration with compatible devices. Constructed for durability and performance, the antenna features an impedance of 50 Ω, optimizing signal strength and quality. Its magnetic base allows for easy and secure placement on metal surfaces, making it suitable for mobile applications. The power source for this antenna is DC, ensuring efficient operation. Measuring 183.4 mm in height with a diameter of 6 cm, and weighing 150 g, this antenna is compact yet robust. Each pack contains one antenna, simplifying the process of enhancing your mobile network. Whether used in a stationary setup or on the move, it provides a significant boost to 5G connectivity.
