

MikroTik Smart Fiber-to-Copper Converter

Model: FTC11XG

Manufacturer: MIKROTIK

EAN: 4752224007964

Product Code: 1578169

R3,301

The **FTC11XG** by **MikroTik** is an advanced **fiber-to-copper converter** designed to bridge the gap between high-speed **fiber optic networks** and traditional **copper Ethernet infrastructure**. This innovative device ensures seamless network connectivity, making it an essential component for modern networking solutions.

Engineered for optimal performance, the **FTC11XG** supports **SFP modules** with speeds of up to **1.25 Gb/s**. This capability allows for rapid data transfer rates, suitable for a wide range of applications, from small office setups to larger enterprise environments. Its versatility makes it a valuable addition to any network configuration.

With its robust design and reliable functionality, the **FTC11XG** is part of MikroTik's commitment to providing high-quality networking solutions. The device is built to withstand the demands of various
