The camera is housed in a durable, white dome casing that offers protection against environmental elements, making it suitable for ceiling installation. It incorporates IR capabilities with a range that ensures visibility in low-light conditions up to distances typical of outdoor environments. Additionally, the camera is equipped with a 120 dB wide dynamic range that enhances image quality under varied lighting conditions.

This model is part of the WizSense series, which is designed to provide intelligent sensing in security applications, distinguishing between human and vehicular figures to reduce false alarms and enhance perimeter protection. The integration capabilities and robust construction make it a dependable choice for enhancing security in diverse settings.
