

Dahua Technology PFM320 power adapter/inverter Universal Black

Model: PFM320D-EN

Manufacturer: DAHUA

EAN: 6939554931031

Product Code: 1578434

R756

The **Dahua PFM320D-EN Power Adapter** is designed for exceptional performance with its **DC 12V 2A** output, ensuring reliable power delivery for a variety of devices. It operates on an **AC 100-240V** input, making it suitable for global use across different voltage standards. This power adapter is particularly ideal for powering security cameras and other electronics that require stable and consistent voltage levels.

Manufactured by **Dahua**, a leader in the security technology industry, the PFM320D-EN model showcases a commitment to quality and innovation. The adapter's compact and efficient design ensures minimal energy loss, providing a notable edge over competitive models in terms of energy efficiency and reliability. Users can trust this product to maintain optimal performance in demanding environments.
