

Dahua Technology PFT1300 network extender Network transmitter White 10, 100 Mbit/s

Model: PFT1300

Manufacturer: DAHUA

EAN: 6939554913044

Product Code: 1578436

R1,133

The **Dahua PFT1300** is a highly efficient **3-Port PoE Extender** designed to enhance the connectivity and power supply capabilities for your network. Featuring **2-Port PoE Out** and **1-Port PoE In**, this model supports passive PoE cascade power supply and Ethernet data exchange, making it ideal for various applications including IP cameras. It adheres to the **IEEE 802.3af/at** standard, ensuring reliable power delivery while accommodating up to three IP cameras with a total power

consumption of $\leq 25\text{W}$.

One of the standout features of the **Dahua PFT1300** is its impressive capability to work with high PoE Midspan (PFT1200), enabling cascading of level 2 PoE extenders. This allows users to extend the transmission distance up to **300 meters**, effectively optimizing their surveillance and monitoring setups without compromising performance. Its versatile installation modes, including junction box internal mounting and DIN rail mounting, provide flexibility to fit various environment requirements.

Constructed with a robust design, the **Dahua PFT1300** is a reliable choice for expanding network capabilities while ensuring sustained performance across multiple devices. With one **RJ45 10/100M PoE power supply input**, along with additional outputs for IP cameras and subsequent extenders, this product exemplifies the reliability and sophistication associated with the **Dahua** brand.
