

Dahua Technology PFM800-4K security camera accessory Video balun

Model: PFM800-4K

Manufacturer: DAHUA

EAN: 6939554931154

Product Code: 1578437

R691

Enhance your video transmission capabilities with the Dahua Technology PFM800-4K video balun, designed to efficiently convert and extend video signals over long distances. This device is crafted from durable acrylonitrile butadiene styrene (ABS), ensuring robustness and longevity in various installation environments. Its sleek black exterior allows it to blend seamlessly with other components within your setup.

Capable of supporting up to 4K video resolution, this video balun ensures high-quality image clarity and detail, making it suitable for advanced surveillance systems. It operates effectively over a maximum distance of 15748" (400 meters), providing ample range for large-scale deployments. The unit is engineered to work with a standard impedance of 100 ohms, facilitating compatibility with a wide range of video equipment.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
