Hikvision DS-2CD2543G2-IWS(2.8mm) 4 MP AcuSense Built-in Mic Fixed Mini Dome Network Camera

Model: DS-2CD2543G2-IWS(2.8mm)

Manufacturer: HIKVISION

EAN: 6931847139216

Product Code: 1578471

R4,913

Equipped with a 4 MP high-resolution sensor, this fixed mini dome network camera delivers clear and detailed images, ensuring effective surveillance and security. The device features AcuSense technology, which enhances its ability to accurately distinguish between human figures and other moving objects, minimizing false alarms and focusing attention on real threats.

The camera includes a built-in microphone that captures audio within its vicinity, adding an additional layer of security through sound recording. With a lens focal length of 2.8mm, it provides a wide-angle view, making it suitable for covering expansive areas without the need for multiple cameras.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Designed for durability, the camera boasts an IP67 rating, confirming its resistance to dust and water, which allows for reliable outdoor installation in various weather conditions. It supports both Wi-Fi and wired connectivity, offering flexibility in integration with existing network systems. The device also supports various advanced functionalities such as motion detection, video tampering alarms, and secure storage options, enhancing its utility in a wide range of security applications.
