

Hikvision DS-3E0106HP-E Switch

Model: DS-3E0106HP-E

Manufacturer: HIKVISION

EAN: 6954273693343

Product Code: 1578478

R1,560

This device is an unmanaged POE switch designed to facilitate efficient network configurations. It features four Fast Ethernet ports that support Power over Ethernet (PoE), making it suitable for a variety of devices such as IP cameras, VoIP phones, and wireless access points. Each port is capable of automatically detecting and supplying power to connected PoE-compatible devices, streamlining the installation process and reducing cable clutter.

The switch supports a maximum PoE power budget of 60 watts, distributing adequate power to connected devices without the need for additional power sources. It operates with a switching capacity of 1.8 Gbps, ensuring smooth data transfer and enhanced network performance. The compact design allows for easy placement in various environments, while its robust construction ensures durability.

With plug-and-play installation, the device requires no configuration, offering a straightforward setup. It also features a fanless design, which contributes to a quiet operation environment. This switch is suitable for small to medium-sized businesses looking for a simple, yet effective solution for
