

# Hikvision DS- 7616NXI- I2/16P/S(E) 16- ch 1U 16 POE AcuSense 4K NVR

Model: DS-7616NXI-I2/16P/S(E)

Manufacturer: HIKVISION

EAN: 6942160426273

Product Code: 1578482

## R15,863

This network video recorder (NVR) features a 16-channel recording capability and supports up to 4K high-definition video resolution, ensuring detailed and clear image quality. The unit is housed in a compact 1U chassis, making it suitable for rack-mounted setups in limited spaces. It includes 16 Power over Ethernet (PoE) ports, which provide both power and network connectivity to PoE-enabled IP cameras through a single cable, simplifying installation and reducing cable clutter.

Equipped with AcuSense technology, the device enhances security operations by using deep learning algorithms to distinguish between human and vehicle targets from other moving objects, reducing false alarms and improving incident response time. The NVR supports H.265+ video compression technology, which significantly reduces bandwidth and storage requirements while maintaining high-quality video output.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Additional features include simultaneous HDMI and VGA outputs, allowing for multi-screen displays and real-time video feeds. The device also offers advanced search and playback functionalities, along with smart search capabilities for efficient retrieval and review of critical events. The NVR ensures data safety with options for redundant recording and network fault tolerance.
